NOTICE

REGISTRANTS' SUBSCRIPTION TO BULLETIN

The Commission regrets that due to financial restraints, it will no longer be possible to supply the Bulletin to registered dealers and advisers free of charge after 31 March, 1983. Therefore, if a dealer or adviser is to be adequately informed with respect to amendments to the Securities Act and the Commodity Futures Act and the regulations thereunder, emerging policies and decisions and rulings of the Commission, it is necessary that the registrant obtain a subscription to the Bulletin.

As previously announced, the Bulletin will be published by Dataline Inc., 175 Bedford Road, Toronto M5R 2L2. Registrants are urged to ensure continued receipt of their Bulletins by contacting Dataline Inc. directly. The general subscription price is \$225.00 per year.

The Commission considers awareness of materials published in the Bulletin to be important to each registrant and will review the list of subscribers after a three month period to determine the number of registrants then listed as subscribers.

NOTICE

MUTUAL FUNDS - COMMODITY FUTURES CONTRACTS

The Commission is of the preliminary view that mutual funds should be able to trade in commodity futures contracts for the purposes of hedging but not speculation. Pending the development of a policy which adequately delineates hedging and sets out an appropriate method of accounting for commodity futures positions when calculating net asset value, the Commission has amended Policy 11.1 (Mutual Funds - General Prospectus Guidelines) to prevent mutual funds from trading in commodity futures contracts or commodity futures options. The Investment Funds Institute of Canada has agreed to consider preparing a proposal on this subject for review by the Commission and all other Canadian securities administrators.

Included in this bulletin is an amended page 11-3 of the revised O.S.C. Policy Statements published December 24, 1982 which sets out the amendment referred to above.

2. Pursuant to subsection 64(2) of the Act, the bar against distribution of the preliminary Exchange Offering Prospectus would prohibit, during the waiting period between the issuance by the Director of receipts for the preliminary Exchange Offering Prospectus and the Exchange Offering Prospectus, those activities otherwise permitted by the subsection, including the solicitation of expressions of interest from prospective purchasers;

..../11

The Commission, after considering the submissions as to the desirability of a separate exchange for the listing of the securities of junior resource and industrial issuers or a separate section on the Exchange for the listing of such securities or separate published quotations for such securities, has concluded that the decision in this respect is more appropriately left to the self-regulatory organization involved, the Exchange.

FOOTNOTE:

The Commission recognizes that it may sometimes be necessary for persons making a written submission in response to a request for comments to request that it be treated as confidential. For example, it may contain sensitive statistical information. However, the Commission hopes that requests for confidentiality will be restricted, for example by including confidential information in a separate submission or schedule and limiting the request to that separate document. Further, the Commission wishes it understood that it will take into account the unwillingness of the person concerned to make a submission available for public debate in determining what weight should be attached to the arguments advanced. Of course, other considerations may apply where the submissions are made in connection with a disciplinary or other proceeding of a quasi-judicial nature.

March 11, 1983

Dear Subscriber:

This is the inaugural issue of the new Ontario Securities Commission's Bulletin, now being published by Dataline Inc.

I wish to take this opportunity to welcome you as a valued Dataline client and bring you up-to-date with the recent activities at the Commission and Dataline which have led to this change.

Recently the Ontario Securities Commission and Dataline began a three phase program to further automate the collection and dissemination of the materials handled by the Commission.

Phase I

Phase I involves the data gathering and publishing process required to provide the Weekly O.S.C. Bulletin. The information is now being centralized in Dataline's computer system; from here various outputs flow. Examples of these outputs include an electronic exchange with an automated typesetting process and the creation of major new information banks stored in the computer (e.g. Insider Trading).

Phase II

Phase II will see the availability of the Bulletin and the information banks through Dataline's Electronic Publishing capability. This will provide national, instantaneous access of the data to anyone having a standard computer terminal. Availability of this service is planned for mid-1983.

Phase III

Phase III will be an on-going creation of various processing applications to further disseminate information to the financial community. Other applications will also be created to support various activities handled by the O.S.C.

Subscriptions

Commencing March 11, 1983, the subscription and distribution list will be maintained by Dataline. Those having queries regarding subscriptions are asked to contact Dataline's Subscription Department or me. Subscription payments are to be forwarded to Dataline.

As you can see, the Weekly Bulletin has undergone significant changes. We welcome your input, as it is highly valued, to provide insight and guidance as we undertake to further refine the publication and new services.

Yours truly,

A handwritten signature in cursive script, appearing to read "R. N. Lord".

THE OSC BULLETIN'S NEW LOOK

The OSC Bulletin has a completely new look as of the March 11, 1983, issue. These changes incorporate both a new method of production and a number of new features. The Bulletin production is now entirely computerized. Input is entered by OSC data entry operators and is captured on Dateline computers; each volume of the Bulletin is organized and collated by the computer; a computer magnetic tape containing the contents and the format of the Bulletin is sent to the printer; and the printer produces the Bulletin using another computerized program. Mailing labels are also generated by computer.

At the same time, a few changes have been made and a number of new features have been added:

1. Each previous "section" is now called a "chapter". Therefore,
Section A is now Chapter 1,
Section L is now Chapter 12,
Section Z is now Chapter 25
Each chapter will begin on the right-hand side of the page.
2. Each page will now contain two different page numbers:
 1. In the upper right hand corner, the sequential page number in that chapter will appear. Page 2-25 refers to chapter two, page twenty-five. These page numbers are similar to the page numbers that have appeared on the previous Bulletins.
 2. On the bottom of each page a sequential page number for the entire bulletin will appear. This number is new to the Bulletin.

All page numbers on one Bulletin are continuous with the corresponding page numbers on the previous Bulletin. For example, if chapter 3 ends on page 45 in one issue, chapter 3 in the next issue begins on page 46. If the last page in one Bulletin is 506, the next Bulletin will begin on page 507.
3. A complete Table of Contents will appear at the front of each Bulletin. In addition to the chapter numbers, names, and starting pages, each individual order/ruling/policy/decision will be listed by name and starting page number. This will enable a quick view of the contents of a chapter to determine which companies/agencies/individuals are included in it this week.
4. A complete Index will appear as Appendix A in each week's Bulletin. This Index will reference each individual entry in the Bulletin.

These changes and new features will improve the appearance and useability of the Bulletin. As further changes are made, any new features will be highlighted and explained.

Ore is not subject to section 24 or 52 of the Act provided that the first trade in each of the 100,000 Shares is made in accordance with the provisions of subsection 71(5) of the Act and section 18a of the Regulations, as if the Shares so traded has been acquired by the vendor pursuant to one of the exemptions referred to in such subsection;
- B. the issue of 35,974 Shares to Satellite is not subject to section 24 or 52 of the Act provided that the first trade in each of the 35,974 Shares is made in accordance with the provisions of subsection 71(4) of the Act, as if the Shares so traded had been acquired by the vendor pursuant to clause (d) of subsection 71(1) of the Act; and
- C. neither the proposed grant of the Option to McLean nor the issue of the 25,000 Shares pursuant to the exercise of the Option is subject to Section 24 or 52 of the Act provided that:
 - i) the Option is non-transferable except by will or pursuant to the laws of descent and distribution; and

THE OSC BULLETIN'S NEW LOOK

The OSC Bulletin has a completely new look as of the March 11, 1983, issue. These changes incorporate both a new method of production and a number of new features. The Bulletin production is now entirely computerized. Input is entered by OSC data entry operators and is captured on Dateline computers; each volume of the Bulletin is organized and collated by the computer; a computer magnetic tape containing the contents and the format of the Bulletin is sent to the printer; and the printer produces the Bulletin using another computerized program. Mailing labels are also generated by computer.

At the same time, a few changes have been made and a number of new features have been added:

1. Each previous "section" is now called a "chapter". Therefore,
 Section A is now Chapter 1,
 Section L is now Chapter 12,
 Section Z is now Chapter 25
Each chapter will begin on the right-hand side of the page.
 2. Each page will now contain two different page numbers:
 1. In the upper right hand corner, the sequential page number in that chapter will appear. Page 2-25 refers to chapter two, page twenty-five. These page numbers are similar to the page numbers that have appeared on the previous Bulletins.
 2. On the bottom of each page a sequential page number for the entire bulletin will appear. This number is new to the Bulletin.
- All page numbers on one Bulletin are continuous with the corresponding page numbers on the previous Bulletin. For example, if chapter 3 ends on page 45 in one issue, chapter 3 in the next issue begins on page 46. If the last page in one Bulletin is 506, the next Bulletin will begin on page 507.
3. A complete Table of Contents will appear at the front of each Bulletin. In addition to the chapter numbers, names, and starting pages, each individual order/ruling/policy/decision will be listed by name and starting page number. This will enable a quick view of the contents of a chapter to determine which companies/agencies/individuals are included in it this week.
 4. A complete Index will appear as Appendix A in each week's Bulletin. This Index will reference each individual entry in the Bulletin.

These changes and new features will improve the appearance and useability of the Bulletin. As further changes are made, any new features will be highlighted and explained.

NOTICES

1.1 PROMPT OFFERING PROSPECTUS SYSTEM: SASKATCHEWAN , LOCAL POLICY 3-09

NOTICE

PROMPT OFFERING PROSPECTUS SYSTEM

SASKATCHEWAN LOCAL POLICY 3-09

The Saskatchewan Securities Commission informs issuers and their advisers that, in order to implement the "Prompt Offering Prospectus System" in that Province, it has adopted, effective 24 February, 1983, the Policy Statement set out following this Notice.

SASKATCHEWAN SECURITIES COMMISSION

LOCAL POLICY 3-09

PROMPT QUALIFICATION SYSTEM

In order to facilitate the "Short Form of Prospectus" and "Prompt Qualification" initiatives of other Securities Commission and permit the use of a similar offering procedure in Saskatchewan, the Commission has adopted the following policy and procedures:

- (a) An issuer that qualifies as a "reporting" issuer under the criteria of Ontario local policy 5.6 may apply for an Order under Section 21 of The Securities Act where:
 - 1) the permanent disclosure of the issuer for the past 36 months is filed with the application, unless the issuer has maintained filings with the Commission of the continuous disclosure material filed in Ontario or a jurisdiction with similar legislation;
 - 2) the "Preliminary Prospectus" filed in the "continuous disclosure" jurisdiction is filed with the application and the Commission is advised a receipt therefore has been issued;
- (b) provision must be made in the "Prospectus" for withdrawal and rescission rights for Saskatchewan investors as these will no longer be statutory;
- (c) because of the Section 21 Order, no Preliminary or Final Receipt will be issued by the Commission, nor should any Section 46 statement appearing on the "Preliminary Prospectus" include Saskatchewan;
- (d) After issue of the Section 21 Order, the issuer, or its agents, may engage in activities as described in Section 43(2) of The Securities Act but no sales under the Order may take place until after a final receipt is issued by the "principal" (continuous filing) jurisdiction and the Commission has been notified of the issue of the receipt.
- (e) The experts' consents and where appropriate, auditors' comfort letters, as contemplated by Section 57 of The Securities Act are to be provided;
- (f) the usual \$50.00 filing fee must accompany the application.

CHAPTER 2
DECISIONS, ORDERS AND RULINGS

2.1 INLAND RESOURCES LTD.

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF INLAND RESOURCES LTD.

ORDER
(Section 67)

WHEREAS Inland Resources Ltd. ("Inland") filed a preliminary prospectus dated February 2, 1983 for which a receipt dated February 4, 1983 was obtained from the Director;

AND WHEREAS it appears that such preliminary prospectus is defective in that it does not substantially comply with the requirements of the Securities Act, R.S.O. 1980, c.466, (the "Act") and the regulations thereunder as to form and content;

NOW THEREFORE IT IS ORDERED that the trading permitted by subsection 64(2) in the securities to which the preliminary prospectus relates shall cease forthwith.

2.2 BELMONT MANOR LIMITED PARTNERSHIP

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF BELMONT MANOR LIMITED PARTNERSHIP

VARIATION RULING
(Sections 73 and 140)

UPON the application of Belmont Manor Limited Partnership ("Belmont Manor") to the Ontario Securities Commission (the "Commission") pursuant to section 140 of the Securities Act, R.S.O. 1980, c. 466 (the "Act") for variation of a ruling (the "Previous Ruling") dated 14 June, 1982, (3 O.S.C.B. 400B), with respect to the proposed offering of units of Belmont Manor;

AND UPON it appearing to the Commission that:

1. Belmont Manor, an Ontario limited partnership having as its general partner Ontario Teachers' Retirement Village (Kitchener) Inc. ("O.T.R.V."), an Ontario non-profit corporation, is not a reporting issuer as defined in the Act;
2. To enable OTRV to achieve its goal of establishing a retirement village for retired teachers, Belmont Manor has entered into an agreement with Fruere Homes Limited ("Fruere Homes") to acquire and develop certain property (the "Project") on Belmont Avenue in Kitchener, Ontario as a multiple unit residential building ("MURB") within the meaning of the Income Tax Act (Canada);
3. Pursuant to the Previous Ruling, Belmont Manor was exempted from section 24 or 52 of the Act with respect to the proposed offering of units of Belmont Manor, provided, inter alia, that prior to the completion of any sale of units, Belmont Manor shall obtain a favourable tax ruling in respect of the development and operation of the Project as a MURB;
4. Due to changes in the financial structure of the Project and other factors, the offering was not completed nor an advance income tax ruling obtained by December 31, 1982; and
5. By an agreement dated December 31, 1982 between Belmont Manor and Fruere Homes, completion of the acquisition by Belmont Manor of the Project was made conditional upon Belmont Manor's obtaining from the Commission a variation of the Previous Ruling to allow Belmont Manor to obtain a favourable opinion of a nationally recognized firm of chartered accountants, knowledgeable in the income tax treatment of MURB investments as an alternative to obtaining an advance tax ruling;

AND UPON being satisfied that to so rule would not be prejudicial to the public interest;

IT IS RULED pursuant to section 140 of the Act that paragraph 2 of the Previous Ruling is amended to read as follows:

"Prior to the completion of any sale of Units in reliance upon this ruling, Belmont Manor shall obtain, in respect of the development and operation of the Project as a MURB, a favourable advance income tax ruling or a favourable opinion of a nationally recognized firm of chartered accounts knowledgeable in the income tax treatment of MURB investments";

SUBJECT TO the following conditions:

- (a) The Offering Memorandum as referred to in the Previous Ruling shall be amended and updated to properly disclose this variation ruling and its conditions; and
- (b) All investors who have already subscribed for units in Belmont Manor shall be notified of this variation ruling and its conditions and be given a right for 10 days from receipt of such notification to withdraw their subscriptions.

AND UPON being advised that:

- (i) the Issuer is a private company within the meaning of the Act and is not a reporting issuer within the meaning of the Act;
- (ii) the articles of the Issuer will be amended to delete the restriction on the number of its shareholders referred to in clause 1(1)31.ii of the Act;
- (iii) the Issuer had, as at October 18, 1982, 45 shareholders, each of whom held 250 common shares, 20,000 preference shares, 15 Class A shares, 18 Class B shares and 520 Class C shares in the capital stock of the Issuer save and except one shareholder who holds 500 common shares, 40,000 Preferred shares, 30 Class A shares, 36 Class B shares and 1,040 Class C shares in the capital of the Issuer;

- (v) Each present and future shareholder of the Issuer is or will be either an individual who is a partner in the medical practice known as the Oshawa Clinic (the "Clinic") or a corporation controlled by such individual (for this purpose, a controlled corporation includes a corporation controlled by the spouse or family of a partner) (the "Partner's Private Holding Corporation") and is or will be a party to the Clinic Partnership Agreement;
- (vi) The issue and transfer of various classes of shares of the Issuer is restricted by a unanimous Shareholders' Agreement made as of April 1, 1979, as amended by a first addendum effective as of

AND UPON being satisfied that the making of this ruling would not be prejudicial to the public interest;

IT IS RULED pursuant to subsection 73(1) of the Act that:

- (a) intended trades in previously unissued common and preferred shares of the Issuer to each individual who may become a partner in the Clinic or to the Partner's Private Holding Corporation of such partner,
- (b) trades in such shares between an individual who is a partner in the Clinic and the Partner's Private Holding Corporation of such partner, and
- (c) the issue by the Issuer of promissory notes to a former partner or to the Partner's Private Holding Corporation or personal legal representative of such former partner in connection with the redemption or purchase of his shares by the Issuer,

are not subject to section 24 and 52 of the Act, provided that:

- (1) Each subscriber for or purchaser of common and preference shares in the capital stock of the Issuer shall be:
 - (i) an individual who is a partner in the Clinic or the Partner's Private Holding Corporation of such partner, and
 - (ii) a party to the Shareholders' Agreement, the Clinic Partnership Agreement and the CMTS Partnership Agreement, which three Agreements shall be substantially in the form and language set out in the Schedules attached to the application filed by the Issuer (except as such Agreements may be amended from time to time by the parties thereto in accordance with the terms thereof) prior to receiving any common and preference shares of the Issuer;
- (2) At or before the time of a trade of common and preference shares of the Issuer made in reliance upon this ruling, the Issuer sends or delivers a copy of this ruling, together with an explanation thereof, to the purchaser of or subscriber for such shares;

- (3) Each subscriber or purchaser pursuant to the terms of this ruling shall receive a copy of the most recent audited financial statements of the Issuer with comparative figures for the preceding period together with the most recent interim financial statements with comparative figures for the preceding period prior to receiving any common and preference shares of the Issuer;
- (4) The first trade in securities acquired pursuant to the exemption granted by this ruling is made in accordance with section 71(5) of the Act and section 18a of the Regulation under the Act (R.R.O. 1980, Reg. 910, as amended) as if such provisions were applicable thereto or such trade is made in accordance with this ruling;

2.4 BALLY MANUFACTURING CORPORATION

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF BALLY MANUFACTURING CORPORATION

RULING
(Section 73)

UPON the application of Bally Manufacturing Corporation ("Bally") to the Ontario Securities Commission (the "Commission") for a ruling pursuant to subsection 73(1) of the Securities Act, R.S.O. 1980, c. 466 (the "Act"), in respect of the first trade in certain common stock purchase warrants (the "Warrants") of Bally and in the common stock (the "Shares") of Bally to be issued pursuant to the exercise of such Warrants;

AND UPON reading the application and recommendation of staff of the Commission;

AND UPON it being represented to the Commission that:

1. Bally is not a reporting issuer in Ontario;
2. Bally is subject to the informational requirements of the Securities Exchange Act of 1934 of the United States of America and has been so subject for more than 14 years;
3. The Shares of Bally are listed for trading on the New York Stock Exchange and the Warrants are listed for trading on the American Stock Exchange (collectively, the "Exchanges");
4. The Warrants were issued by Bally as a dividend to the holders of its Shares (the "Shareholders") of record on November 29, 1982 on the basis of one Warrant for each thirty Shares then held;
5. As of November 3, 1982, there were approximately 75 Shareholders resident in Ontario holding an aggregate of 103,468 Shares which aggregate represents .004% more or less of the total issued and outstanding Shares;
6. The aggregate number of Shares of Bally that may be purchased by residents of Ontario upon exercise of the Warrants cannot be determined;

AND UPON the Commission being satisfied that to so rule would be prejudicial to the public interest;

IT IS RULED that the first trade by each of the Shareholders resident in Ontario in the Warrants or in the Shares of Bally issued through the exercise of the Warrants is not subject to section 24 or 52 of the Act, on the following terms and conditions:

1. Any such first trade is effected through the facilities and in accordance with the rules, including by-laws, regulations, and policies, of either of the Exchanges;
2. A copy of this ruling, or a synopsis of the terms and conditions hereof, shall have been furnished by Bally to each of its Shareholders resident in Ontario.

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF CANADIAN INDEPENDENT PAINT DEALERS
ASSOCIATION INC.

RULING
(Section 73)

UPON the application by Canadian Independent Paint Dealers Association Inc. (the "Issuer"), an Ontario corporation, to the Ontario Securities Commission (the "Commission") for a ruling pursuant to subsection 73(1) of the Securities Act, R.S.O. 1980, c. 466 (the "Act") that the issue of its common shares and non-voting special shares with a par value of \$1.00 are not subject to section 24 or 52 of the Act;

AND UPON it appearing to the Commission that:

1. The Issuer is an Ontario company incorporated on September 3, 1982;
2. The Issuer is not a reporting issuer under the Act;
3. The Issuer was incorporated by various independent retail paint and wallpaper dealers with the view of combining their purchasing power to qualify for bulk discounts and rebates from suppliers;
4. The authorized capital of the Issuer consists of common shares and non-voting special shares with a par value of \$1.00 each (the "Special Shares") of which the Special Shares are redeemable at the option of the Issuer;
5. There are at present 15 shareholders of the Issuer holding an aggregate of 4,500 common shares;
6. The common shares are the only voting shares of the Issuer and no shareholder may hold more or less than 300;
7. The total net profit of the Issuer may be distributed annually to the shareholders by way of the issue of Special Shares;
8. Each shareholder is required to enter into an agreement with the Issuer and to purchase 300 common shares at \$1.00 per share at the time of becoming a shareholder;
9. The agreement referred to in paragraph 8 above, which as amended is attached to the application (the "Dealer Agreement"), contains certain restrictions on the dealing by shareholders with their shares of the Issuer as well as certain matters in respect of the conduct of the shareholder's business;

AND UPON the Commission being satisfied that to so rule would not be prejudicial to the public interest;

NOW THEREFORE IT IS RULED that the issue of common shares or Special Shares by the Issuer are not subject to section 24 or 52 of the Act, subject to the following conditions:

1. The Issuer shall prepare and deliver to each of its shareholders, but not to the Commission, its annual audited financial statements and unaudited semi-annual financial statements in accordance with sections 76, 77 and 78 of the Act;

3. The bylaws of the Issuer shall be amended to provide for 21 days notice of shareholder meetings;
4. The Issuer shall have delivered to each of its present shareholders and shall deliver to each prospective shareholder before such prospective shareholder shall become a shareholder of the Issuer:

 - (iii) a copy of the most recent audited annual financial statements and most recent semi-annual financial statements if subsequent to the former; and
 - (iv) a copy of this Ruling;
5. All present shareholders of the Issuer shall have executed a copy of the Dealer Agreement and each prospective shareholder shall execute a copy of the Dealer Agreement prior to or upon becoming a shareholder;
6. A trade of common shares or Special Shares of the Issuer by a shareholder thereof shall be subject to the provisions of section 71(5) of the Act, as if the shares so traded had been acquired by the vendor pursuant to clause 1(n) of section 71 of the Act, unless:
 - (a) the trade is to a spouse, child, daughter or son-in-law of a shareholder who is a dealer under the Dealer Agreement;
 - (b) the trade is to a pledgee or mortgagee to secure a bona fide loan; or
 - (c) the trade is to the Issuer; and

7. All certificates for Special Shares and common shares of the Issuer issued after the date of this Ruling shall be engrossed with a legend indicating that every trade of such shares by the holder thereof is prohibited except in accordance with this Ruling.

THE OSC BULLETIN'S NEW LOOK

The OSC Bulletin has a completely new look as of the March 11, 1983, issue. These changes incorporate both a new method of production and a number of new features. The Bulletin production is now entirely computerized. Input is entered by OSC data entry operators and is captured on Dateline computers; each volume of the Bulletin is organized and collated by the computer; a computer magnetic tape containing the contents and the format of the Bulletin is sent to the printer; and the printer produces the Bulletin using another computerized program. Mailing labels are also generated by computer.

At the same time, a few changes have been made and a number of new features have been added:

1. Each previous "section" is now called a "chapter". Therefore,
Section A is now Chapter 1,
Section L is now Chapter 12,
Section Z is now Chapter 25
Each chapter will begin on the right-hand side of the page.
2. Each page will now contain two different page numbers:
 1. In the upper right hand corner, the sequential page number in that chapter will appear. Page 2-25 refers to chapter two, page twenty-five. These page numbers are similar to the page numbers that have appeared on the previous Bulletins.
 2. On the bottom of each page a sequential page number for the entire bulletin will appear. This number is new to the Bulletin.

All page numbers on one Bulletin are continuous with the corresponding page numbers on the previous Bulletin. For example, if chapter 3 ends on page 45 in one issue, chapter 3 in the next issue begins on page 46. If the last page in one Bulletin is 506, the next Bulletin will begin on page 507.
3. A complete Table of Contents will appear at the front of each Bulletin. In addition to the chapter numbers, names, and starting pages, each individual order/ruling/policy/decision will be listed by name and starting page number. This will enable a quick view of the contents of a chapter to determine which companies/agencies/individuals are included in it this week.
4. A complete Index will appear as Appendix A in each week's Bulletin. This Index will reference each individual entry in the Bulletin.

These changes and new features will improve the appearance and useability of the Bulletin. As further changes are made, any new features will be highlighted and explained.

CHAPTER 1

NOTICES

1.1 NOTICE TO READERS

The transition to publication of the Bulletin by Dataline Inc. has created unanticipated technical difficulties for Commission Staff which have been compounded by limited resources. These difficulties have resulted in a limitation upon, and delay in, material appearing in the Bulletin, and in typographical errors. The Commission regrets the inconvenience to readers of the Bulletin, and appreciates the forbearance of Bulletin readers until these transitional problems are resolved. In the interim, proceedings of the Commission requiring timely disclosure will be published by way of press release.

1.2 REMARKS OF PETER J. DEY, CHAIRMAN OF THE O.S.C.

REMARKS OF PETER J. DEY,
CHAIRMAN OF THE ONTARIO SECURITIES COMMISSION,
TO THE ASSOCIATION OF FELLOWS OF
THE CANADIAN SECURITIES INSTITUTE

MARCH 17, 1983

I want to thank the Canadian Securities Institute for inviting me to join you this evening and for providing me with this opportunity to report on some of the policy developments of the last couple of months that might be of interest to you and to test the waters with a couple of proposed policy initiatives.

I would be remiss if I did not comment at the outset that, even in my short time at the Commission, on several occasions I have bumped up against the question of the appropriate educational requirements for trading various of the exotic instruments which seem to be available these days, and always, the Canadian Securities Institute has been there to provide us with the comfort that educational materials are being developed in order to qualify various segments of the investment community to trade these exotic instruments. The Canadian Securities Institute makes a very important contribution to the quality of our capital markets and I commend the Institute for its innovative and constructive approach to securities and commodities education.

There are five topics which I would like to address tonight, although you should feel free to raise questions on any of the activities of the Securities Commission during the question period at the conclusion of my comments. The five topics are:

1. "Unfixing" commission rates;
2. Industry ownership;
3. The prompt offering prospectus system;
4. Extension of statutory civil liability; and
5. The balance between public financing and private financing.

"UNFIXING" COMMISSION RATES

An issue that is commanding the attention of a lot of brokers these days and, for that matter, a lot of computer programmers, is that of negotiated commission rates. The commission decided last year to get out of the rate approving business, and allow the market to determine the cost of brokerage services to the investing public. Industry response was mixed. In some quarters, negotiated rates have been welcomed as an important business opportunity to be exploited. Others are apprehensive about the impact the rate competition may have on their businesses and livelihoods.

The Commission's involvement in the preparation for negotiated rates has been limited to ensuring, through continuous discussions with the Exchange, that the April 1 date is realistic and that necessary amendments to the Exchange by-laws will be made. In addition, in anticipation of the establishment of discount brokerage operations or, transaction specialists, we have had to review our own regulations to test their suitability for these businesses. We have received the odd plea for more time, but basically our understanding is that the industry is prepared for April 1, and that each firm has its own strategy for responding to negotiated rates. Along with the Exchange and the IDA, we will be monitoring the health of individual firms, to guard against customer losses in the event of the failure of a firm as a result of overly ambitious negotiation.

I am certain that it will take several months - perhaps a year or more - before we really understand the impact of unfixing the rates. However, I don't believe that there will be wholesale shifts of business. Cost is only one consideration in choosing a broker. The quality of service, the sensitivity of the broker to the client's needs and objectives, and so on, will continue to play an important role in selecting a broker.

An interesting bit of fallout from unfixing rates is that the Exchange can now revoke its policy regulating the payment of soft dollar commissions. The revocation of this policy has been coupled with a new by-law which prohibits the payment of secret commissions - somewhat similar to the general prohibition in the Criminal Code. The new by-law requires that the client consent in writing if rebates or special privileges are being granted to an employee or an agent of the client. The principle underlying the by-law is simply that the party bearing the economic cost of the commission payments should realize all of the benefits related to such costs, unless otherwise agreed.

One scenario put to us by a pension fund manager raises an interesting issue for fiduciaries. It goes like this: A corporation retains the pension fund manager to manage the pension fund for the employees of the corporation. The corporation directs the pension fund manager to place its brokerage with a specified dealer. The dealer uses part of the brokerage fee to pay for, as an example, a computer to be delivered to the corporation. In this case, the brokerage services supplied would not reflect the cost of the commissions paid, because a portion of the commissions would be allocated to supplying a non-brokerage service.

The important issue in these circumstances is that the party incurring the cost of the brokerage, that is to say, the pension fund, is not enjoying the economic benefit of the non-brokerage services. The computer is being purchased for the corporation which has the power to select the pension fund manager and specify the terms of the pension fund manager's retainer. If the corporation/pension fund relationship can be analogized to the employee/employer relationship, such an arrangement would be prohibited by the Exchange by-law - but the analogy is not clear.

If the broker engaged in enough of these transactions, it is possible that the broker would ultimately have to reduce its brokerage support services.

From our perspective, the arrangement of economic favours not related to the provision of brokerage services to clients is of concern if the brokerage services deteriorate because an inadequate portion of commission income is being allocated to the provision of these services. I doubt that this will be a problem because brokerage firms will continue to do what they do best and to profit from it, and that's the provision of efficient brokerage and sound investment advice.

I urge you to contact the Commission at any time if you have concerns about any questionable practices resulting from unfixing commissions and any concerns about the financial viability of any of the firms.

Competition for brokerage may require additional capital, and this brings me to the issue of

INDUSTRY OWNERSHIP

As you are aware, the Commission conducted hearings last year into the question of institutional ownership and diversification into other businesses by securities dealers registered under the Act. The Commission split into a majority panel of five and a minority panel of three on certain of the recommendations.

The suggestion will have both a theoretical and practical basis. The theoretical basis is my concern about investor protection, which I noted earlier. The practical consideration will be that under our statute, unless an auditor consents to the appearance of his opinion in a prospectus, he is not civilly liable. I feel strongly that the auditor should be exposed to statutory civil liability, and this will be a consequence of his consenting to the appearance of his report in the prospectus.

THE EXTENSION OF STATUTORY CIVIL LIABILITY

This takes me to one of the balloons that I would like to float with you. As you probably are aware, the POP system will operate with a very short form prospectus. The prospectus is short because it incorporates by reference documents that are already on the public file - the annual information form, the annual report, interim statements, timely disclosure reports, information circulars, and so on. The due diligence required of prospectus participants will apply to the material incorporated by reference. Due diligence will be required because the material incorporated by reference will be subject to the same civil liability exposure as the prospectus. Accordingly the participants in the POP system will be preparing continuous filings on the assumption that they could form part of a prospectus and therefore, these documents, prepared for the secondary market, will be prepared using a prospectus standard of care.

This seems to be a logical extension of statutory civil liability when one considers the relative volumes of trading that take place in the primary markets and secondary markets. The liability under the statute should become less transaction oriented and be simply based upon public statements made by corporations.

You can see the trend developing. Those issuers which are eligible to use the POP system will have to prepare all public statements with a prospectus standard of care. Other issuers may not be so rigorous because any statutory liability they incur will only be incurred at the time of a prospectus financing. Such a discrepancy between the two classes of issuer, in the standards of care applied to the preparation of public documents, does not make sense. Accordingly, the Commission is giving some thought to framing for exposure and comment, amendments to the Securities Act, extending the statutory civil liability (which now applies to prospectus disclosure) to all documents published and filed with the Commission made by corporations whose securities are traded in the public markets.

An extension of civil liability on this basis will have to be carefully analyzed. A number of questions arise. In the prospectus context, the class of investor entitled to rely upon the civil liability provisions is defined and limited to those investors who purchase securities in the course of the distribution. If civil liability applies to continuous disclosure documents, what definition should be given to the class of investors entitled to rely on the provision? Is it every investor who purchases securities from the time of the publication of the report to the time a misrepresentation in a report is discovered? Will the extension of civil liability to such readable documents as the annual report, make the annual report read like an insurance policy? Can we attach civil liability to documents published as a requirement of the issuer's laws of incorporation, such as an information circular for a shareholders meeting? Will civil liability arise, not as a result of misrepresentations, but as a result of failure by issuers to make disclosure on a timely basis?

When I suggested the extension of statutory civil liability to continuous disclosure documents to one group, the group asked me what was the quid pro quo for the extension of civil liability? I am not sure that we have to give a quid pro quo, but in the spirit of continued co-operation, perhaps the answer

will be to allow issues that don't qualify for the POP system to use the POP system prospectus forms in order to reduce printing and processing costs. Financings relying upon a short form prospectus would be done with the usual review by the securities commissions and the usual waiting period. However, the expedited prospectus clearance that is possible under the POP system would not be available.

We are studying these ideas and will probably publish a proposed amendment to the Act in the near future.

THE DELICATE BALANCE BETWEEN PUBLIC FINANCING AND PRIVATE FINANCING

A second balloon that I would like to float with you is not unrelated to the extension of statutory civil liability. The issue I would like to raise is whether our securities laws should have, as an objective, the encouragement of financing by way of private placement, or whether our securities laws should be designed to be as neutral as possible on this question.

The issue has become more vivid recently with a number of private placements having been effected for issuers who, according to some news reports, were at the same time contemplating a public offering of equity securities. The private placement route apparently has greater appeal to some issuers and investors, for a number of reasons.

A private placement can be accomplished with more efficiency than a public offering. There is therefore less time commitment from the issuer's management. Once the decision is made to make the placement, there is little time available during which the market can move against the issuer and the investor and therefore, the expectations of the issuer as to price for its equity are rarely disappointed. Once the issuer has decided to make the offering, the time between this decision and the receipt of the funds is very limited, with consequent savings. For example, if the funds to be received are to replace indebtedness, considerable savings will be realized because of the accelerated schedule for repayment of the indebtedness. Commissions payable in respect of a private placement are generally less than commissions payable on a firm underwriting. On the other hand, the issuer will probably have to issue its equity at a discount from the market to compensate the investors for the lack of liquidity the investors face during the hold periods that are imposed as a result of financing within the so-called "closed system" of our Securities Act. As you know, these hold periods vary from 6 to 18 months, depending upon the investment quality of the security.

The introduction of the POP system has, of course, made public financings for eligible issuers, more competitive with private financing, at least in terms of the time required to complete the public financing.

There is a proposal in Bill 176 which will significantly affect the relative attractiveness of private financing, compared with public financing.

In Bill 176 in its present form, the \$97,000 exemption, the private placement exemption, would be amended so that it is not available for new issues unless an offering memorandum is given to the private placement investor. An offering memorandum is a defined term, and means "a document purporting to set forth information concerning the business and affairs of an issuer that has been prepared primarily for delivery to, and review by, prospective purchasers so as to assist those purchasers to make an investment decision in respect of the securities being sold". That definition is fine, but the real definition appears to be provided by the investment community's reading of another proposed amendment to the Act which imposes civil liability upon a seller if an offering memorandum contains a misrepresentation.

This liability provision alone, has virtually turned the offering memorandum into a prospectus. A misrepresentation in an offering memorandum is not only an untrue statement of a material fact, but also an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it is made. As a result of these provisions, no lawyer is going to comfortably advise an issuer that it has done everything reasonable to protect against liability, unless the offering memorandum makes very full and accurate disclosure of the affairs of the issuer.

The private placements which we have recently observed which have competed successfully with public offerings, have done so because they have, according to my information, not been achieved by way of offering memorandum. In essence, the investors, largely pension funds, are already investors in the issuer making the private placement, and don't require whatever protection is offered by way of an offering memorandum. Bill 176 would not allow this. It would require an offering memorandum, and accordingly, at least one of the advantages to the issuer of these recent private placements would disappear.

I have tried to go back and understand why the offering memorandum concept was developed. My understanding is that the Commission, shortly after the enactment of the new Act in September 1979, became concerned with the volume of financing that was being done by way of private placement, to people of somewhat lesser sophistication and bargaining power than had previously prevailed, in private placements. There was a concern as to the adequacy of some of the material being provided to these places. Not to discourage participation in private placements by persons other than institutions but to equalize the position of the parties, it was agreed that any private offerings made by an offering memorandum would have to provide a contractual right of action against the seller. The contractual right of action would arise in the event of a misrepresentation. Accordingly, any reliance on the exemption for what were essentially retail offerings requiring a selling document, could only be made if this right of action was attached to the selling document.

This was the state of affairs until Bill 176 which, as I noted earlier, would make an offering memorandum mandatory in the event of any private placement. The Bill 176 approach was something of a trade-off for the threshold level not being raised from \$97,000 to \$250,000. It is obvious that if the offering memorandum is in essence a prospectus, then by mandating an offering memorandum, we will be effectively removing the private placement exemption. This is an issuer of major concern to me.

My concern is heightened when I observe the trend to simplifying public financing. At the time we are rationalizing our systems of public financing, we are complicating, and perhaps rendering academic, private financing.

I am not quite sure what the answer to these issues is. Do we, as securities regulators, have a responsibility to ensure that private financing is sufficiently difficult to ensure that there will be enough public financing to enable the public to participate directly in new financings, and ensure that the public's participation is not limited to the secondary market after the institutional investors have decided that they have held securities received by way of private placement long enough. Is this the purpose of the hold periods which are currently in our statute? Obviously it doesn't take 6 months, in the case of a security that is eligible for investment, for the marketplace to reflect the impact of a private placement. And it doesn't take 12 months for the marketplace to absorb this information in the case of a listed stock, or 18 months in the case of an unlisted stock. Those hold periods must have a different purpose. If they replaced the concept of "investment intent", then the hold periods must have been conceived to prevent "back door" underwritings.

If we are reducing the significance of the prospectus, then perhaps we, as regulators, shouldn't be so concerned about back door underwritings. We should be concerned that material information concerning issuers is provided on a timely and ongoing basis, and that new financing is done using routes that are not wholly dependent upon the application of our securities laws.

The trend of securities regulation in the next several years will be to require less emphasis upon the prospectus, and more emphasis upon the accuracy and timeliness of information otherwise provided to the marketplace. This trend should mean that public financing will be easier with simpler documents, reduced waiting periods and reduced review by securities regulators - at least for specified types of securities. Private financing will continue to be attractive to issuers although we will have to pursue answers to some of the questions I have raised about balancing the amount of public and private financing.

The markets, as always, will continue to be heavily dependent upon analysts to ensure that the marketplace is informed and that information is reflected in the prices of securities.

As we pursue the answers to these questions, we will continue tinkering with the mechanisms that regulate public offerings and private offerings. On the specific issue which I have raised about the requirement for offering memoranda in the case of private offerings, I expect we may revert to the pre-bill 176 system whereby offering memoranda are voluntary unless the private offering is being advertised. These are important questions, and we at the commission are interested in your views.

Thank you.

REPEAL OF O.S.C. POLICY 1.5

DISTRIBUTIONS OF SECURITIES OUTSIDE ONTARIO

O.S.C. Policy 1.5 (formerly Draft Policy 3-47) entitled "Distributions of Securities Outside Ontario" primarily addresses the policy concern that securities distributed prospectus-free abroad not be illegally distributed or redistributed into Ontario or to Ontario residents.

Policy 1.5 adopts a broad construction of the definitions of "trade" and "distribution" in the Securities Act (Ontario) (the "Act") and states that in light of the breadth of these terms, a distribution of securities by an issuer outside Ontario may also be considered to be a distribution of securities in Ontario requiring compliance with the prospectus provisions of the Act or an exemption therefrom. The subject matter of Policy 1.5 is thus relevant both to distributions by issuers incorporated or continued under the laws of Ontario or whose head office is situate in Ontario ("Ontario issuers") and to distributions by all other issuers ("non-Ontario issuers") regardless of their connection, if any, with Ontario.

Policy 1.5 does not apply to issuers who satisfied the criteria for eligible reporting issuers set forth in O.S.C. Policy 5.6 entitled "Prompt Offering Qualification System" whether or not such issuers intended to effect distributions outside Ontario in accordance with Policy 5.6.

The Commission has received a considerable number of comments with respect to Policy 1.5. Some commentators have expressed the concern that Policy 1.5 will seriously interfere with the capital formation process for issuers effecting financings outside Ontario where it is manifest that there is no intention that the securities distributed abroad will find their way into Ontario and where no question arises of bringing the Ontario capital markets into disrepute.

The Commission is of the view that Policy 1.5 may have unduly interfered with legitimate distributions outside of Ontario. Therefore, as of the publication of this Bulletin, the Commission has repealed Policy 1.5. At the same time the Commission wants to make known its views on the application of the Act to distributions of securities outside of Ontario. The Commission is therefore publishing, in place and stead of Policy 1.5, the following Interpretation Note.

Request for Comments

Comments are requested with respect to the Interpretation Note following this Notice. The Commission is particularly interested in suggestions concerning reasonable restrictions that should be taken in various circumstances to ensure that securities distributed abroad come to rest outside of Ontario. Comments should be submitted on or before April 29, 1983 to:

The Secretary
Ontario Securities Commission

Comments received will be made available for public inspection unless confidentiality is specifically requested.

INTERPRETATION NOTE 1

Distributions of Securities Outside Ontario

1. The Provisions of the Act

The basic prospectus requirement of the Act is contained in subsection 52(1) which provides, in part, as follows:

"No person or company shall trade in a security on his own account or on behalf of any other person or company,

(b) ...where such trade would be a distribution of such security,

unless a preliminary prospectus and a prospectus have been filed and receipts therefor obtained from the Director."
(emphasis added)

The term "trade" is defined in paragraph 1(1)42 of the Act, in part, as follows:

"trade"...includes,

i. any sale or disposition of a security for valuable consideration, whether the terms of payment be on margin, instalment or otherwise, but does not include a purchase of a security or, except as provided in subparagraph iv, a transfer, pledge or encumbrance of securities for the purpose of giving collateral for a bona fide debt,

v. any act, advertisement, solicitation, conduct or negotiation directly or indirectly in furtherance of any of the foregoing;"

The term "distribution" is defined in paragraph 1(1)11 of the Act, in part, as follows:

"distribution", where used in relation to trading and securities means,

i. a trade in securities of an issuer that have not been previously issued.

iii. a trade in previously issued securities of an issuer from the holdings of any person, company or combination of persons or companies holding a sufficient number of any securities of that issuer to affect materially the control of that issuer, but any holding of any person, company or combination of persons or companies holding more than 20 per cent of the outstanding voting securities of an issuer shall, in the absence of evidence to the contrary, be deemed to affect materially the control of that issuer,

....." (emphasis added)

A "distribution" thus includes a sale by a issuer of its previously unissued securities to a purchaser, whether or not such purchaser is an underwriter of the securities. While a sale by an issuer to an underwriter acting as purchaser is exempt from the prospectus requirements of the Act by paragraph 71(1)(r), the sale by the underwriter of such securities constitutes a distribution pursuant to subsection 71(6) of the Act.

The term "underwriter" is defined in paragraph 1(1)43 of the Act, in part, as follows:

"'underwriter' means a person or company who, as principal, agrees to purchase securities with a view to distribution or who, as agent, offers for sale or sells securities in connection with a distribution and includes a person or company who has a direct or indirect participation in any such distribution, but does not include,"

2. Statement of Principle

In light of the outlined provisions of the Act, including the broad definition of "trade", and depending on the connecting factors with Ontario, a distribution of securities outside Ontario by Ontario or non-Ontario issuers might also be considered to be a distribution of securities in Ontario requiring compliance with the prospectus provisions of the Act or an exemption therefrom.

However, where a distribution of securities is effected outside of Ontario by Ontario or non-Ontario issuers and where reasonable steps are taken by the issuer, underwriter and other participants effecting such distribution to ensure that such securities come to rest outside of Ontario, the Commission takes the view that a prospectus is not required under the Act, nor is an exemption from the prospectus requirements necessary. Reasonable precaution and restrictions should be implemented by the issuer, underwriters and other participants in the distribution to ensure that the securities are not distributed, or redistributed, into Ontario or to Ontario residents and that such securities come to rest outside Ontario. Such precaution and restrictions should be designed to ensure that the entire distribution process results in the securities being held by or for the benefit of non-residents, as opposed to intermediaries in the distribution chain holding securities for resale to Ontario residents.

3. The Operation of the Principle

The number and nature of the restrictions that should be implemented, and precautions taken, in connection with the distribution of securities outside Ontario to ensure that such securities come to rest outside Ontario will, of necessity, vary with the circumstances surrounding each distribution.

In some financings, some of the following restrictions or precautions might be advisable:

(1) A restriction in the underwriting agreement against the underwriters selling the securities being offered to any Ontario resident;

(2) A similar restriction in the banking group or selling group agreements requiring banking group members or selling group members not to offer securities to Ontario residents;

(3) An "all-sold" certificate by the underwriters that they have not, to the best of their knowledge, sold any securities to Ontario residents;

(4) A statement provided in the confirmation slip sent by underwriters to purchasers of the offered securities that it is the underwriters' understanding that the purchaser is not a resident of Ontario; or

(5) A provision in the transfer agency agreement between the transfer agent and the issuer requiring the transfer agent not to register securities in the name of any Ontario resident for a period of time (e.g. ninety days) from the date of closing.

In Eurobond or Eurodollar financings sufficient precaution will generally have been taken where:

(1) the offering circular contains a legend stating that the securities are not qualified for sale in Ontario or Canada and may not be offered or sold directly or indirectly in Ontario or Canada;

(2) the underwriters contractually agree that they will observe this restriction regarding the prohibition of offering in Ontario or Canada; and

(3) the securities to be distributed are initially issued in temporary form exchangeable for definitive securities 90 days after completion of the distribution upon certification that the definitive securities are not beneficially owned by Ontario or Canadian residents.

In other cases other factors will be relevant, including the class and nature of the securities being distributed, the attractiveness to Ontario investors of such securities, the likelihood that, absent such restrictions or precautions, the securities would come to rest in Ontario, whether a market for the class of securities being distributed or any other securities of the issuer already exists in Ontario, the likelihood of the development in the future of a market in Ontario for the securities being distributed, the way in which the distribution is proposed to be effected, the relationship between the capital markets of Ontario and the jurisdictions in which the securities are being distributed and the ease of access of one to the other, whether or not the underwriters and other participants in the distribution are, or are affiliated with, investment dealers that conduct substantial

activities in Ontario and the presence of the issuer in Ontario (whether through the conduct of business in Ontario, a number of shareholders resident in Ontario, the issuer being closely followed by Ontario investors or otherwise).

In cases of private placements outside of Ontario, where hold periods would have been applicable if the placement had taken place in Ontario, the Commission takes the view that the restrictions made or precautions taken to ensure that the securities come to rest outside Ontario need not be effective beyond the time for the hold period which would have applied had the placement been made in Ontario.

The onus is on the issuer, underwriters and other participants in the distribution to determine the number and nature of the restrictions to be implemented and precaution to be taken.

4. Ontario Registrants

Each Ontario registrant has the duty to take reasonable steps to ensure that trades in securities effected by or through such registrant do not involve trades of securities into Ontario or to Ontario residents without compliance with the prospectus requirements of the Act or in reliance on an exemption therefrom. More particularly, a registrant who sells, on behalf of one of his clients, securities in Ontario or who purchases securities outside Ontario must take reasonable steps to ensure that the transaction does not involve the distribution of securities not qualified in Ontario coming to rest in Ontario or with Ontario residents.

All Ontario registrants should establish standard procedures to prevent unlawful distributions of securities into Ontario and to ensure that the registrant meets its continuing responsibility to know both its clients and the securities being sold by or to its clients.

See also National Policy 20.

5. The Integrity of the Ontario Capital Markets and the Jurisdiction of the OSC

Needless to say, the Commission will not hesitate to intervene, to the extent of its powers, in distributions of securities outside of Ontario which negatively impact upon the integrity of Ontario capital markets.

Where the Commission becomes aware of distributions abroad by Ontario issuers that bring the reputation of Ontario's capital markets into disrepute, the Commission is of the view that it has the jurisdiction, for the due administration of the Act and in order to preserve the integrity of the Ontario capital markets, to exercise its cease trade powers or to take other appropriate action against issuers, underwriters and other participants so distributing securities abroad.

1.4 REPEAL OF O.S.C. POLICY 7.5 (FORMERLY 3-70)

NOTICE

REPEAL OF O.S.C. POLICY 7.5 (formerly Policy 3-70)

DEPARTURES FROM CICA HANDBOOK RECOMMENDATIONSSECTION 1500.06 OF THE HANDBOOK

In December, 1982, the Commission published Policy 7.5 (formerly Policy 3-70) with a request for comment by February 15, 1983. The Policy requires that, where in reliance upon Section 1500.06 of the CICA Handbook the accounting treatment or statement presentation does not follow a specific recommendation in the Handbook, reference should be made in the auditor's report to the note to the financial statement explaining the practice adopted and the reasons for the departure from the specific recommendation in the CICA Handbook.

In response to the request for comments, the Commission received 21 submissions. The correspondents urged the Commission to withdraw the Policy on a number of grounds including concerns that a reference in the auditor's report would attach undue significance to the subject matter of the departure from the specific recommendation of the Handbook, dilute the gravity attaching to a qualified report by an auditor, discourage the legitimate exercise of professional judgement and encourage the misperception that the entirety of GAAP is equated with the specific requirements of the Handbook.

Although the Commission agrees with the thrust of the comments, it continues, over and above the manner which the exercise of professional judgement is brought to the attention of the reader of the financial statements, to share the view expressed by the Special Committee on Standard-Setting in its Report to the CICA Board of Governors that the role of professional judgement should be further developed and clarified in the Handbook material. To that end discussions were held with representatives of the CICA and it is the Commission's understanding that a recommendation will be made to the Auditing Standards Committee of the CICA to review the Present Handbook material.

In Light of the comments received and as a result of the discussions with representatives of the CICA, the Commission has decided to withdraw Policy 7.5. Pending a determination by the Auditing Standards Committee to initiate a review of the present Handbook material, the Commission has instructed its staff to monitor departures from the specific recommendations set forth in the CICA Handbook in reliance on Section 1500.06 of the Handbook.

1.5 NOTICE OF HEARING: FRED HOLLAND SAVAUGE

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1980, c.466

AND

IN THE MATTER OF FRED HOLLAND SAVAUGE

NOTICE OF HEARING
(Section 25)

TAKE NOTICE that the Director of the Ontario Securities Commission (the "Commission") will hold a hearing pursuant to the provisions of section 25 of the Securities Act, R.S.O. 1980, c.466 (the "Act") on Monday, the 18th day of April, 1983, at 10:00 o'clock in the forenoon or so soon thereafter as the hearing can be held, at the offices of the Commission at 20 Queen Street West, Toronto, to consider whether registration should be granted to Fred Holland Savauge ("Savauge") as a securities salesman with Canadian American Financial Corp. (Canada) Ltd. by reason of the following allegations:

1. While registered pursuant to the provisions of the Commodity Futures Act, R.S.O. 1980, c.78 (the "Commodity Futures Act") Savauge was the subject of disciplinary proceedings by the Board of Governors of The Toronto Stock Exchange ("TSE"). The Board of Governors of the TSE issued Reasons for Decision dated 11 May, 1982 in which Savauge was found guilty of the following misconduct:

(A) Savauge exercised discretionary authority in four separate accounts contrary to section 8.31(1) of the General By-laws of the TSE;

(B) Savauge solicited secret payments from the clients who held the abovementioned four accounts and from other clients contrary to section 17.01(1) of the General By-laws of the TSE; and,

(C) Savauge attempted to mislead the TSE contrary to section 17.10(2) (b) of the General By-laws of the TSE.

2. As a result of its findings, as more specifically set out in the said Reasons for Decision dated 11 May 1982, the Board of Governors of the TSE fined Savauge \$10,000 plus \$3,300 for the costs of its investigation and suspended Savauge for a period of six years.
3. By reason of the conduct of Savauge as described in paragraph 1 above, and by reason of the findings and disposition of the matter by the Board of Governors of the TSE as described in paragraphs 1 and 2 above Savauge is not a suitable person to be registered under the Act.

AND TAKE NOTICE that any party to the proceedings may be represented by counsel of his choice at the hearing if he attends or submits evidence thereat.

AND TAKE NOTICE that upon failure of any party to attend at the time and place aforesaid, the hearing may proceed in his absence and he is not entitled to any further notice in the proceedings.

NOTICES

1.1 CLAUSE 71(5) (B) OF THE SECURITIES ACT

NOTICE

Re: Clause 71(5) (b) of the Securities Act - Disclosure of the issue or transfer of securities through the exercise of a right

Pursuant to subsection 71(5) (b) of the Securities Act (the "Act") and subsection 17(4) of the regulations under the Act (the "Regulation"), the first trade in securities previously issued or transferred through the exercise of a right to purchase, convert or exchange in reliance on the exemption in subclause 71(1) (f) (iii) or clause 71(1) (h) of the Act is a distribution unless, among other things, disclosure to the Commission has been made of the previous issue or transfer of such securities (see clause 71(5) (b) of the Act).

The Commission staff has noted the difficulties which issuers have encountered in complying with the reporting requirements in clause 71(5) (b) of the Act with respect to securities previously issued or transferred through the exercise of a right. It is often the case that many right holders exercise within a short period of time, and further, holders often wish to sell the securities immediately after exercising.

In order to alleviate these difficulties and at the same time provide for more meaningful disclosure of the number of securities "overhanging" the market, a draft subsection to be added to section 57 of the Regulation has been prepared, and is set out below. The requirement of a cumulative monthly report has been chosen in order to mesh with the current policy requirements of The Toronto Stock Exchange.

Comments on the proposed provision are requested and may be submitted to the Secretary of the Commission on or before April 29, 1983. Such comments will be available to the public unless confidentiality is specifically requested.

PROPOSED SUBSECTION 57(6) OF THE REGULATION

For the purpose of clause 71(5)(b) of the Act and subsection 17(4) of this Regulation, adequate disclosure shall be deemed to have been made to the Commission of a trade in securities made by an issuer through the exercise of a right to purchase, convert or exchange in reliance on the exemption in subclause 71(1)(f)(iii) or clause 71(1)(h) of the Act if a letter is filed by or on behalf of the issuer within ten days following the end of the month in which the trade is made, disclosing the aggregate number of securities transferred or issued during the month through the exercise of such right by all holders thereof and the purchase price or other consideration provided or to be provided per security.

AND

IN THE MATTER OF THE CONSUMERS' GAS COMPANY LTD.

ORDER
(Section 117(2) (a) (ii))

UPON the application, received in completed form on March 10, 1983, of The Consumers' Gas Company Ltd. (the "Issuer"), a company incorporated under the laws of Ontario, to the Ontario Securities Commission (the "Commission") pursuant to Section 117(2) (a) (ii) of the Securities Act, R.S.O. 1980, C. 466, (the "Act");

AND UPON the Commission, pursuant to Section 6 of the Act, having assigned to me the power to make such an Order;

AND UPON being satisfied in the circumstances of this particular case that there is adequate justification for so doing;

IT IS ORDERED pursuant to Section 117(2) (a) (ii) of the Act that the insiders of the Issuer be and hereby are exempted from the reporting requirements of Section 102 of the Act with respect to the acquisition of securities of the Issuer through its Canadian Stock Purchase and Savings Plan (the "Plan") provided that:

1. Each insider shall file on or before February the 28th of each year a report in the form prescribed by Section 102 of the Act disclosing therein any increase not previously reported in the holdings of such insider of the securities through the Plan during the twelve month period ending December the 31st preceding such date; and

2. If any insider should dispose of securities acquired through the Plan prior to reporting the acquisition thereof, such insider shall file a report in accordance with Section 102 of the Act disclosing therein both the acquisition and disposition of such securities.
